Things to Ponder

Did you know: oral Testosterone undecanoate is intended to be absorbed via the lymphatic system, not the vascular system.

Do you know the onset and duration of action for the PDE-5 Inhibitors?

Do you know your province’s drug coverage for these medications?

Well its **MOVEMBER** and to help raise awareness for Men’s health issues and prostate cancer we started a Movember team at the pharmacy where I work.

We figured this would be a good suitable puzzle to increase awareness for this cause.
